

Fairy and Friends Counting Flash Cards & 2-Part Counting Cards

To use these documents I recommend printing them on cardstock and then laminating them, allowing them to be used over and over!

I created these documents to help Pre-K and K aged kids work on counting, number recognition and number word recognition. The flash card set would be used to help kids learn to count and visually associate the number. The 2-Part Counting Cards would be used to help kids be able to learn to match the number and number word piece with the correct picture piece.

Thanks and I hope you and your kids enjoy them!

This document is for personal use in your home or classroom. Please do not host these files on your website. Please direct link its original post from Over the Big Moon or Show and Tell!

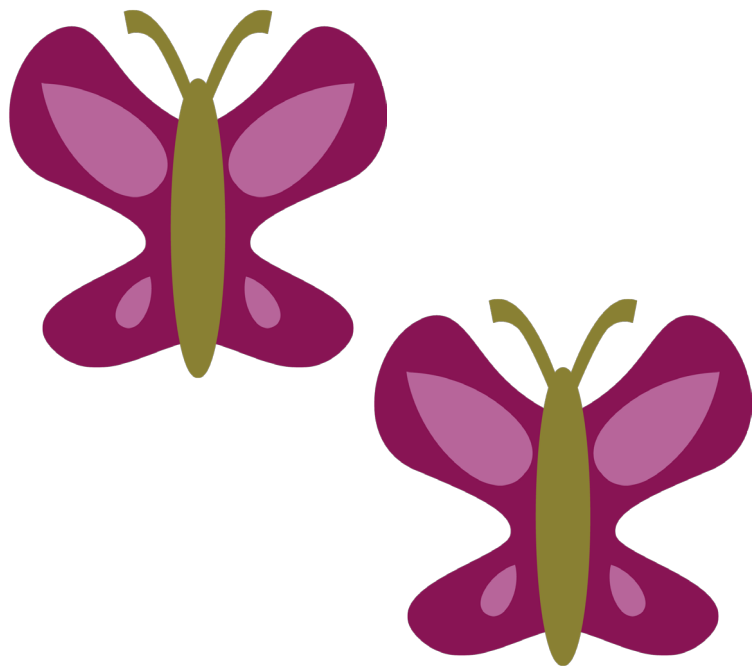

THANKS!
Pam
